

# ELEVEN AMERICANS WERE SLAIN.

**Killed While Scouting in Luzon —Wagon Train Ambushed—  
Rebels Given Opportunity to Take Advantage of the  
Amnesty Decree —Some are Accepting it.**

[Early Dispatches.]  
Manila, July 8.—The past week's scouting in Luzon resulted in eleven Americans being killed and sixteen being wounded. One hundred and sixty Filipinos were killed during the week, and eight Americans who had been prisoners in the hands of the rebels, were surrendered, and 100 rifles were turned over to the United States officials. The enemy ambushed a wagon train

between Indang and Nale. The Third Infantry lost nine men while on an expedition to punish the ladrones in the delta of the Rio Grande. In the Antigua province of Panay, a running fight of three hours' duration resulted in the killing or wounding of seventy of the enemy. There were no casualties among the Americans. The insurgents are slowly accepting the Americans' provisions. In some instances the Americans are suspending operations in order to give the rebels an opportunity to take advantage of the amnesty.

## ENGLISH MARKET FALLEN.

An Uncomfortable Cheapness May Have a Most Unpleasant Ending.

Gold Coming Into the London Market is Immediately Snapped Up by Foreigners.

New York, July 9.—The Times London financial correspondent cables: The English market has fallen into a state of uncomfortable cheapness, which may have an unpleasant ending. Thanks to the necessities of the government, bankers have been deluged immediately the balances of the borrowings at bank were paid off, while the week before last amounted to £4,500,000, part of which was disbursed before dividend day. Dividends, British and Indian, came out on Thursday and immediately the balances of the worry-leave the bank for Paris. The same time short credits in the open market fell to 1½ and 1¼ per cent.

Generally speaking, cheap floating credit brings low discount rates, but it has not been so now. Such is the nervousness of the city that bill brokers have actually raised their commissions since money became ever abundant and on Friday and yesterday ninety day remitted paper at 2.50 per cent. There are reasons in plenty for this nervousness, not the least cogent of which is the persistent export demand for gold. Not only is the gold that comes into the open market snapped up by the foreigners, but small parcels war reports of the government. We said that we enter the second and trying half of the year with only £500,000 more visible gold in stock than we had at the beginning of January last. Something must be done to stop the export and attract the metal if the storm is to be stayed off in the autumn and therefore discount houses have begun to struggle against the deluge of discounting of cheap credit brought into bearing by the profuse New York, July 9.—The Times' London might hope that something would be done by the payment of "khaki" loan instalment next Tuesday to stiffen the short loan market and so help the brokers, but unfortunately the exports of the war have caused this money to be anticipated, and what we are much afraid of now is the issue of yet another loan. Provision for a campaign in China may be given as an excuse for fresh demands, but South Africa will take a heavy share in what may be going. No sooner, therefore, is the open market deluged of the credits poured into it by the treasury than fresh payments flood it again and all the time it is being forced toward a crisis.

Around the tension is less, especially in Germany, but this merely to liberal resort to the advance of paper money, and experienced bankers are apprehensive that the German emperor's ambitious Chinese war program may place an undue strain on the Berlin market. Even Paris is not altogether comfortable, but the very universality of apprehensiveness may avert anything more injurious than a speculative spasm of stringency.

Already the beginning of such a spasm has darkened the trade outlook and I am unable to report anything cheerful about British commerce. Lamentable has been suffering for some time through the Indian famine and plague, and now the Chinese imbroglio is sending depression into the woolen and metal trades. With all this coal keeps extremely dear, to the curtailment of profits, and railway stocks have been falling because speculators expect reduced dividends in spite of improved gross receipts.

On the stock exchange one hears nothing but growling, so that members welcome a holiday such as they had yesterday with shouts of delight. Even the investment business cannot make both ends meet, and the very gings ships for peace.

The best opinion here leans to the view that the score about a shortage

## HILL IS SATISFIED.

He Says the Democratic Ticket is a Strong One.

Albany, N. Y., July 9.—David B. Hill, on his arrival here from Kansas City, speaking of the work of the Democratic national convention, said: "I labored to have the convention adopt a more conservative platform on the financial question, but not being on the platform committee, my efforts were unsuccessful. I am, however, reasonably satisfied with the action of the convention, and acquiesce in the result. The ticket is a strong one, and if the enthusiasm with which it is received in the west is any indication of its popularity, it ought to be successful."

## Fatal Carriage Accident.

Indianapolis, Ind., July 8.—A special to the Sentinel from Columbus, Ind., says: Edward Mooney, senior member of the firm of W. W. Mooney and Sons, was thrown from a carriage during a runaway last evening and was so badly injured that his death occurred at midnight. Miss Sallie Talbott, Mr. Mooney's housekeeper, is in a fatal condition. She was unconscious at midnight, and the extent of her injuries could not be determined.

Mr. Mooney's two children and Miss Gray, a stenographer, were in the carriage with him at the time of the accident, and were thrown out, but escaped serious injury.

## High Death Rate Among Children.

New York, July 9.—To the continuation of the hot weather is attributed the high death rate among children. For the first six days of July the deaths reported of children of five years old or under, averaged 53 in Manhattan and the Bronx, and 41 in Brooklyn. Sunday's list includes 45 such deaths in Manhattan and the Bronx.

## CHARLES A. TOWNE'S DECISION.

No Announcement Will Be Made Until Notified of His Nomination.  
Lincoln, Neb., July 8.—No formal announcement will be made by Charles A. Towne of his decision in regard to the Populist nomination for the vice presidency until the Populist committee gives him formal notification of the nomination. This will be in about ten days. He said today that he would make public his decision at that time and would issue an address giving his reasons for the action he takes. What that action would be he refused to say.

"But my course is perfectly clear now," Mr. Towne added. "I have already talked the matter over with several of the Populist leaders. The subject will also probably come up, though in an informal way, at tomorrow's meeting of the advisory committee."

## Admiral Bruce Very Hopeful.

London, July 9, 10:52 a. m.—Admiral Bruce, a telegram from the admiralty department from Tokyo, under date of July 7th, to the effect that there are grounds for hoping that Prince Ching, with his army, is at Peking protecting the legations against Prince Tuan, his army and the Boxers.

Pocatello	22	12	.522
Short Line	23	4	.174

"Well, if that's the way the Short Lines play ball no wonder they are at the tail end." Such was a remark heard in the grand stand at Walker's baseball field Saturday afternoon. It was at the conclusion of one of the most one-sided affairs ever witnessed in Utah. The Pocatellos winning by a score of 12 to 6.

Never was the home team seen to such poor advantage. It was apparently an utter impossibility for some of the Clippingerites to hold a ball after it fell into their hands, and as a result of such blunders the game was lost and seven large errors were booked against them. Some of the work done by the Short Lines was exceptionally good. Two neat double plays are credited to them. At it availed nothing—they were bound to lose. The attendance was smaller than usual, there being present only about 425. Kidder pitched for the Short Lines, and his work was very poor. He allowed the Pocatellos to get in fifteen expensive hits. Enbanks twirled for the Pocatellos and showed up well.

## SHORTS WIN ONE.

Yesterday's game between the same teams resulted in a victory for the Short Lines. In the second innings the Short Lines picked up wonderfully and simply murdered Lillis by batting out nine runs. This streak coupled with the victor's costly errors won the game.

Lillis was hit so hard that young Harmon was put in the box. Of course the hitting stopped immediately. The Shorts only got five more hits and three runs.
